STACKABLE GUEST CHAIR

The S27 is a durable, practical, stackable, versatile, and comfortable chair. But it's human-centered design means that it does more than just look good. Its waterfall back serves double-duty as an armrest. And it's available in nine different colors. So mix and match, stack and sit, and have fun. This is a stacking chair that doesn't look like one. It's comfortable for long periods of time in a number of positions. And it embodies a lively spirit in its design and fresh color palette.
