The S28 is a multi-function task chair well-suited to any duty in your office. Its multiple controls allow the user to customize it to fit their body and job function. The arms adjust to a height required for a particular task and utilize soft pads to resist damaging furniture. The seat back is easily height adjustable to best position the lumbar support to your body and the back angle allows the seat to lock throughout the angle range for perfect back support or allowed to float with the user.
